

# Hamid Eghbali

## AWS Certified Fullstack Cloud Developer

+1 (437) 499 0651 - [Portfolio](#) - [hardinegh@gmail.com](mailto:hardinegh@gmail.com) - [linkedin.com/in/hamid-egh](https://linkedin.com/in/hamid-egh) - [github.com/hamideghbali](https://github.com/hamideghbali)

### EDUCATION

#### AWS Certified Cloud Practitioner

CLF-C02

Toronto, Canada

2023

#### Kheradmandan Pazh

Mathematics and Physics

Mashhad, Iran

2011 - 2022

#### Ferdowsi University

Economic Engineering

Mashhad, Iran

2022 - 2023

### TECHNICAL SKILLS

**Programming Languages:** Javascript, Typescript

**Front-End:** React, Next.js, Tailwind CSS, Bootstrap, HTML5, CSS, SCSS, Material-UI, Redux, AWS Amplify, AWS AppSync, Amazon CloudFront, AWS Device Farm, Amazon Cognito

**Back-End:** Node.js, Express.js, RESTful APIs, Axios, AWS Lambda, Amazon API Gateway, AWS Elastic Beanstalk, Amazon S3, AWS Step Functions, Amazon SQS, Amazon SNS, AWS CloudFormation

**Databases:** MySQL, MongoDB, PostgreSQL, SQLite, Amazon RDS, Amazon DynamoDB, Amazon Aurora, Amazon Redshift, Amazon ElastiCache, Amazon Neptune, Amazon DocumentDB

**Cloud Services:** AWS (IAM, Cognito, Lambda, API Gateway, DynamoDB, Amplify, etc.)

**Development Tools:** Git, GitHub, Docker, Postman, VS Code, Cloud Platforms, CI/CD Tools, Testing Frameworks, Code Quality Tools, Docker, AWS CodeCommit, AWS CodeBuild, AWS CodeDeploy, AWS CodePipeline, AWS CloudFormation, AWS Cloud9, AWS SAM (Serverless Application Model), AWS CDK (Cloud Development Kit), AWS X-Ray, AWS CloudTrail

### PROJECTS

- **Task List Application:** Built with AWS Amplify, AWS Lambda, and Amazon DynamoDB, this task list (to-do list) application allows users to manage tasks efficiently. [Try it!](#)
- **Quiz App:** Developed using AWS Amplify, AWS Lambda, and AWS Cognito, this application requires user sign-in and offers a simple quiz experience. [Try it!](#)
- **Countries Flags:** Deployed on Vercel, this web app built with Next.js and Tailwind CSS lets users explore countries around the world using REST APIs and Axios for fetching data. Features include search and filter, country details, and dark mode. Also includes a backend component for API integrations and data management. [Try it!](#)
- **Home Rental:** Employed SCSS for styling and JavaScript for frontend and backend development in a web app, facilitating user login/signup and vacation home rental management integrated with MongoDB. [GitHub](#)
- **Coding Problems:** Comprehensive collection of over 1000 JavaScript coding solutions, showcasing proficiency in algorithmic problem-solving and JavaScript programming skills. [Try it!](#)

### WORK EXPERIENCE

#### No Frills

Jim and Maria's No Frills, Ontario, Canada

11/2023 - NOW

- Proficient in delivering exceptional service across dairy, frozen, and grocery departments, ensuring high levels of customer satisfaction.
- Skilled in optimizing operations within the store, contributing to improved efficiency and effectiveness in service delivery.

#### Car Wiring And Electricity

Iran Khodro, Mashhad, Iran

6/2022 - 2/2023

- Specialized in diagnosing and repairing electrical systems in vehicles, with a focus on ensuring optimal performance and safety. Developed a deep understanding of automotive electronics and electrical components through hands-on experience.
- Acquired practical skills in handling complex wiring and electrical components in vehicles. This includes troubleshooting issues, repairing faulty wiring, and installing new electrical systems to enhance vehicle functionality and reliability
